

U.S. 45 – IL 132 to IL 173 and Millburn Bypass
Public Meeting #2 Summary

The second Public Meeting was held for the Phase I study of the U.S. Route 45 Millburn Bypass on September 2, 2010 at Millburn West School in Lindenhurst from 4:00 p.m. to 7:00 p.m. The purpose of the meeting was to provide an update to the public on the progress of the Phase I Study, provide information to the stakeholders regarding the study progress, schedule, and to-date results, and solicit input from the public. To do so, the three ‘finalist alternatives’ for the Millburn Bypass area were presented along with the entire alternatives development process. The Public Meeting also provided an opportunity for the stakeholders to provide input on the finalist alternatives carried forward to this point and set the stage for the movement towards selection of a preferred alternative.

Public notices were placed in the August 13 and August 27, 2010 editions of the Daily Herald newspaper, the August 14 and August 28, 2010 editions of the News Sun newspaper, and the week of August 19, 2010 Pioneer Local newspaper. A typical advertisement is included in Appendix 1. Letters of invitation were sent to public officials and agencies, representatives of local communities, utilities, other governmental agencies, and property owners within the study area. A copy of the typical letters and the mailing lists are attached as Appendix 2. Approximately 676 letters announcing the Public Meeting were mailed for this project.

The meeting was an open house format with a continuous PowerPoint presentation, exhibit boards for review, and large scale aerials of the study area to which meeting attendees provided comments, suggestions, issues and concerns. A total of 300 people signed the attendance register. A copy of the Public Meeting attendance register is included in Appendix 3. Attendees were provided with a project brochure, included as Appendix 4, and then were directed to view the project exhibits, which were arranged in a series of six information stations. The stations were organized as follows:

1. Study overview (PowerPoint presentation)
2. Study Progress / Purpose and Need Overview
3. Public Involvement / CAG Proceedings
4. Alternatives Development and Evaluation Process
5. Finalist Alternatives and Evaluation
6. Public Comments

A map of these progressive stations as well as an outline of the information each station was portraying were included in the brochure that was given to each attendee as they arrived at the meeting, and this layout guide is also included with the brochure in Appendix 4.

The following exhibits were among those placed on display at the various stations:

Station 1: Slideshow – This Station presented a short PowerPoint slideshow with audio. The show provided an overview of what was presented in greater detail at all of the other stations.

Station 2: Study Progress / Purpose & Need Overview – This Station included general project update information. This included a look at the progress within the Federal NEPA process being utilized for this Phase I Study. This Station also explained the process of how the study was expanded to include the logical termini of IL 132 to IL 173 and how the study of those improvements will be woven into the already progressing study of the Millburn Bypass. The Public Involvement Plan (PIP) and a project schedule chart were available for viewing at this table.

This Station also included multiple exhibits that showed the various pieces of information that were pieced together to guide the alternatives development process for the core study area. These included aerial exhibits depicting natural and man-made features, sensitive environmental resources (biological and cultural), and solicit input on the context of the study area. This Station also provided materials that described the early data collection activities that the study team performed, including aerial surveys, traffic counts, origin-destination studies, accident data, environmental features, and the study GIS network. All this data was presented to give the public an idea of the obstacles around which alternatives had to be formulated and upon which they were evaluated. While information in the core study area was available in greater detail, the expanded study limits area was shown on an aerial to provide the viewer with a visual overview of the length of the entire study.

Exhibits Shown:

- Interdisciplinary Project Development Flowchart
- Current GIS exhibit for full EA
- Current GIS exhibit for Bypass Area
- NEPA process white paper
- Purpose and Need summary page
- Full Purpose and Need
- Existing and 2030 Traffic Data, O/D study, Crash Analysis Summary for full EA project area

Station 3: Public Involvement/Community Advisory Group Proceedings – This Station provided information on the overall Public Involvement Plan and the CAG process so far and its use for this study to-date. This also provided the opportunity to show the public how key stakeholders have been engaged in the process. CAG members were present to offer their insight on how the process has unfolded.

Exhibits Shown:

- Interdisciplinary Project Development Flowchart
- Current CAG Binder (includes Public Involvement Plan)
- 1 copy of (30 x 40) display board with pictures of CAG meetings 1, 2, and 3 – CBBEL
- Display board with listed members of the CAG

Station 4: Alternatives Development and Evaluation Process – This Station provided the story of how the Project Study Group was able to screen the alternatives from an original range of 18 alternatives, first to nine, and ultimately to the three finalists. Input was solicited on the perceived transportation needs for the expanded area and potential solutions.

Exhibits Shown:

- Boards for the 18 alternatives
- Board for the 9 alts in three alignment alternative groups
- Board of the evaluation matrix for the 9 alternatives
- Screening Summary
- Typical Sections (1 for U.S. Route 45, 1 for County routes)

Station 5: Finalist Alternatives and Evaluation – This Station showed the three developed finalist alternatives for the core study area carried forward to this point. Additionally, the ongoing evaluation of these alternatives was exhibited. The evaluation tools used by the project team to weigh these alternatives against each other were explained. The public was asked to provide input on each developed alternative remaining. This station also had a projector and screen set up to show the Synchro/SimTraffic runs for the three finalist alternatives.

Exhibits Shown:

- Land Use Data for full EA project area
- Board for the three finalist alternatives
- Evaluation matrix for the final 3 alternatives

Station 6: Comments – This Station was set up as a location for attendees to write their comments (Comment Sheet/Questionnaire) and submit them in a comment box.

The Lake County Division of Transportation (LCDOT), Christopher Burke Engineering, Patrick Engineering, Huff and Huff Inc, and IDOT representatives were available at each station to provide information, answer questions, and discuss individual concerns with members of the public at the meeting.

Comment sheets were available for those choosing to provide written comments at the meeting or for mailing to the LCDOT after the meeting. 201 comments were provided by the public. Copies of the written comments are included in Appendix 5, in addition to a full summary of the results.

The comment forms submitted covered a variety of topics, with the most predominant themes including:

- Congestion concerns,
- Bypass routings through residential areas,
- Safety,
- Traffic Noise, and
- Land Use Planning

PUBLIC MEETING
US Route 45 – IL Route 132 to IL Route 173
Millburn Bypass Alternatives

The Lake County Division of Transportation (LCDOT) cordially invites all interested persons to attend an Open House Public Meeting concerning a US 45 Phase I Study from IL Route 132 to IL Route 173. This Public Meeting is specifically focused on the finalist roadway alternatives being considered for the Millburn Bypass within the Villages of Lindenhurst and Old Mill Creek in Lake County. The meeting is scheduled for the following date:

Date: Thursday, September 2, 2010
Time: 4:00 PM to 7:00 PM
Location: Millburn West Public School
640 Freedom Way
Lindenhurst, IL 60046

The purpose of the meeting is to present the Millburn bypass alternatives including the development and screening process since the first Public Meeting; seek public input on the remaining finalist alternatives; and describe the Community Advisory Group (CAG) meeting process that has been engaged throughout the Phase I study.

The meeting will be conducted on an informal, open house basis, meaning interested persons can attend at any time from 4:00 PM to 7:00 PM. Exhibits will be on display and representatives from LCDOT, IDOT, and the consultants will be present to receive input, provide information, and answer questions.

Written comments regarding the project may be completed at the Public Meeting or mailed to the below address no later than September 13, 2010.

The meeting location is accessible to persons with a disability. Persons with a disability planning to attend this meeting should notify the individual listed below by August 30, 2010 if special accommodations are needed.

US Route 45 – IL Route 132 to IL Route 173
Millburn Bypass Alternatives
Public Meeting Notification

August 13, 2010

Mr. Apolinar Espinosa
3018 Haven Lane
Lindenhurst, IL60046

Owner of PIN: 236204004

Dear Mr. Espinosa,

The Lake County Division of Transportation (LCDOT) cordially invites you to attend an Open House Public Meeting concerning the Phase I Study for US Route 45 from IL Route 132 to IL Route 173. This Public Meeting is specifically focused on the finalist alternatives being considered for the Millburn Bypass within the Villages of Lindenhurst and Old Mill Creek in Lake County. The meeting is scheduled for the following date:

Date: Thursday, September 2, 2010
Time: 4:00 PM to 7:00 PM
Location: Millburn West Public School
640 Freedom Way
Lindenhurst, IL 60046

The purpose of this meeting is to present the overall bypass alternatives development and screening process since the first meeting, to seek public input on the remaining finalist alternatives, and to describe the Community Advisory Group (CAG) process which was an integral part of the bypass alternatives development and screening process.

The meeting will be conducted on an informal, open house basis, meaning interested persons can attend at any time from 4:00 PM to 7:00 PM that is convenient. A slideshow presentation will be shown every half hour starting at 4:00 PM, with the last showing at 6:30 PM. Exhibits will be on display for viewing and an opportunity will be provided to submit comments. Representatives from the Lake County Division of Transportation and the Illinois Department of Transportation, as well as their consultants, will be present to discuss various aspects of the project.

If you have any questions or need additional information, please contact Chuck Gleason, Project Manager, at (847) 377-7447.

Very truly yours,

Martin G. Buehler, P.E.
Director of Transportation/County Engineer

Cc: Jarrod Cebulski, Patrick Engineering Inc.

Finalist Alternatives and Evaluation

Based on feedback gathered at the third CAG meeting, three finalist alternatives were chosen to be carried forward. Evaluation of Alternatives A1, A4, and C4 shown above will be the focus of tonight's meeting. All three finalist alternatives provide good transportation performance for a reasonable cost and were favorable with respect to environmental and socioeconomic impacts in comparison to the other alternatives.

Tonight's meeting has been formatted in a manner conducive to open discussion and comment with regard to the three finalist alternatives, which is aimed at identifying any remaining issues, opportunities, and constraints associated with each remaining alternative. All participants tonight are encouraged to visit any and all stations, as necessary, to reach full understanding of the steps that have been taken in the process to this point and provide meaningful input.

U.S. 45 – Millburn Bypass Project Timeline

Project Questions and Comments

Your comments and input are an important part of this meeting. Written questions and comments, or requests for materials, may be submitted during this Public Meeting by placing them in the comment box or they may be sent to LCDOT at the address indicated below:

Mr. Chuck Gleason, Project Manager
Re: Millburn Bypass
Lake County Division of Transportation
600 West Winchester Road
Libertyville, Illinois 60048-1381

Meeting Brochure

Public Meeting #2 Millburn Bypass Finalist Alternatives

For

U.S. Route 45 - IL 132 to IL 173 And Millburn Bypass

Date: Thursday, September 2, 2010

Time: 4:00-7:00 PM

**Place: Millburn West School
640 Freedom Way
Lindenhurst, IL 60046**

Welcome to this Public Meeting

The Lake County Division of Transportation (LCDOT) welcomes you to this Public Meeting concerning the status of Phase I engineering and environmental studies for the U.S. Route 45 from IL Route 132 to IL Route 173, with special focus on the finalist alternatives for the Millburn Bypass.

This open house will last from 4:00 to 7:00 PM. You are invited to view the project exhibits displayed around the room. Staff members from LCDOT and the project engineering consultants will be hosting information stations, as indicated within, to discuss various aspects of the project and answer questions you may have.

Purpose of this Public Meeting

This Public Meeting will describe the project development process to date. This includes how the Community Advisory Group (CAG) and project team proceeded through the alternatives development, evaluation, and screening process to result in concurrence on carrying forward alternatives. The primary focus of tonight's meeting will be the three finalist alternatives that have been carried forward for further evaluation tonight. The Project information stations at this Public Meeting include:

1. Project Overview: PowerPoint Slideshow
2. Study Progress/Purpose and Need
3. Public Involvement/Community Advisory Group (CAG) Proceedings
4. Alternatives Development and Evaluation Process
5. Finalist Alternatives and Evaluation
6. Comments

* An exhibit showing the location of each station is included with this brochure.

met four times. At the first CAG meeting the Project Study Group (PSG) introduced the project and both groups went over the Public Involvement Plan (PIP) until consensus with regard to the PIP format was reached. Next, the CAG and PSG worked together to develop the project problem statement based on the transportation needs of the study area and the purpose of the study previously established.

Project Purpose & Need

The purpose of the project is to provide an improved transportation system to address capacity, mobility, safety, and operational deficiencies along U.S. Route 45 within the Millburn Bypass area. The need for improvement is identified within the formal document that establishes the purpose for and the need for the transportation project. This document addresses project history, and compares existing conditions and future "No-Build" conditions with respect to mobility/capacity, safety, and operational deficiencies. Alternatives must meet the project Purpose & Need to be carried forward. For this project, based on traffic growth, intersection vehicle delay and crash occurrences have reached unfavorable values. Evidence of this is seen in the following statistics:

- 300% average increase in traffic volumes on U.S. 45 from 1974 to 2009.
- If no improvements are made to the Grass Lake Road and Millburn Road intersections with U.S. Route 45, traffic congestion will increase as much as 400% by the year 2030.

The following project problem statement was established to support the purpose and need:

"The transportation problems to be solved by the U.S. 45 at Grass Lake Road/Millburn Road project are present and future congestion, safety and accessibility for all modes of transportation, and also impacts to natural and manmade environments."

The project Purpose & Need Statement is available for viewing today at Station 2 and is on the website.

Public Involvement & Community Advisory Group

Per the Public Involvement Plan, methods and timeline for meaningful coordination with project stakeholders at critical decision making points in the project development process were laid forth. As part of the process, key stakeholders were selected to join the CAG. The CAG consists of the chief elected officials or their designees who have the authority to speak on behalf of the municipalities (Villages of Lindenhurst and Old Mill Creek) and various other entities. The purpose of the CAG is to provide input on the development of the Purpose and Need statement and the alternatives to be carried forward for evaluation at each stage of the process. The CAG represents a broad range of interests. CAG members are present this evening that can be identified by the badges they are wearing, so please feel free to discuss the project with them as well. The PSG provides overall project oversight and decision making authority.

Alternatives Development and Evaluation Process

Initially, 18 alternatives were conceptually created based on options drawn by the public at the first Public Meeting, input from CAG, and assessment by PSG. These represented a full range of potential alternatives for the analysis of a bypass within the Millburn area. The 18 potential alternatives were based on a combination of three north-south alignments for US 45 and 6 east-west alignments between Grass Lake Road and Millburn Road. Based on input from the CAG and PSG, evaluation of the ability of each potential alternative to meet the project purpose and need, and the presence of unreasonable impacts, nine alternatives were chosen to move forward for engineering development and environmental evaluation. The north-south alignments (A, B, and C) included realigning US 45 to the west, maintaining its existing alignment, and realigning to the east, respectively. East-west alignments ranged from maintaining existing Grass Lake Road and Millburn Road to realigning one or both, north or south, to new east-west roadway links. Please refer to displays in the exhibit room which show the 18 potential alternatives. Of these 18, nine alternatives were drafted and evaluated via more quantitative means than the first round of elimination, and the PSG presented information during the third CAG meeting associated with each of the nine alternative's ability to meet objectives related to the four categories of transportation performance, environmental concerns, socioeconomic impacts, and cost. This allowed the CAG to draw comparisons between alternatives and help select those that should be carried forward. Following the third CAG meeting, the PSG selected three finalist alternatives to be carried forward for additional evaluation. These finalist alternatives are the focus of tonight's meeting.

Project Schedule/Next Steps

After tonight we will have progressed through two public meetings and four CAG meetings. Next, the project team will evaluate the Public Meeting comments (Please make your thoughts known!) and results and a Preferred Alternative will be selected. Once an alternative is chosen, final engineering and environmental reports will be prepared, and concurrence sought for the chosen alternative.

Please make your way from exhibit to exhibit to learn more about this Study.
If you have any questions, please ask any of the County or consultant
representatives present.

MILLBURN WEST SCHOOL
640 W. Freedom Way
Lindenhurst, IL 60046

THURSDAY, SEPTEMBER 2, 2010
4-7 PM

PROVIDED TO PUBLIC AT MEETING:

- Sign-in sheet,
- Meeting brochure,
- Questionnaire/Comment Form
